

CSCS 507 : APPLICATION SECURITY

Course Objective:

The objective of the courses to

- 1) To understand basic concepts of Cyber security.
- 2) To Understand the fundamental concepts of OWASP.

UNIT I

Secure Web Site Design: Choosing a Web Server, The Basics of Secure Site Design, Guidelines for Java, JavaScript, and Active X, Designing and Implementing Security Policies. **Introduction to OWASP** (12 hours)

UNIT II

Implementing a Secure E-Commerce Web Site: Implementing Security Zones, Understanding Firewalls, Implementing Intrusion Detection, Managing and Monitoring the Systems, Pros and Cons of Outsourcing Your Site, **Securing Financial Transactions:** Understanding Internet-Based Payment Card Systems, Options in Commercial Payment Solutions, Examining E-Commerce Cryptography. (12 hours)

UNIT III

Handling Large Volumes of Network Traffic : Determining the Load on Your Site, Managing Bandwidth Needs, Introduction to Load Balancing. (12 hours)

Course Outcome:

At the end of the course student will be able to

- 1) Learn fundamentals of OWASP and E-commerce website security.
- 2) Learns basic on handling large volume network traffic.

TextBooks:

- (1). "Hack Proofing your E-commerce Site", Ryan Russell, Mark S. Merkow, Robin Walshaw, Teri Bidwell, Michael Cross, Oliver Steudler, Kevin Ziese, L. Brent Huston, Syngress, 2001
- (2). "The Secure Online Business", Adam Jolly, Kogan Page, 2003
- (3). "The Secure Online Business handbook e-commerce, IT functionality & business continuity", third edition, jonathanreuid, Kogan Page, 2003
- (4). "Security Fundamentals for E-Commerce", Vesna Hassler, Artech House, 2001

CSCS 508 : BIG DATA ANALYTICS

Course Objective:

The objective of the courses to

- 1) Introduction to big data and exploring the big data analytics and techniques.
- 2) Exploring tool and databases for cyber security.

UNIT I

Applying Big data into different Cyber Security aspects : The Power of Big Data in Cybersecurity, Big Data for Network Forensics, Dynamic Analytics-Driven Assessment of Vulnerabilities and Exploitation, Root Cause Analysis for Cybersecurity, Data Visualization for Cybersecurity, Cybersecurity Training. (12 hours)

UNIT II
