

PROJECT WORK
M.Sc. Biosciences (2018-19)

Sl. No.	Name	Project Title	Supervisor
1	Ashvitha T S	Phytochemical characterization, antibacterial activity and green synthesis of silver nanoparticles from Seaweeds	Mr. S. Ravitheja
2	Ashwitha	Phytochemical analysis and antimicrobial properties of <i>Pterocarpus marsupium</i> and <i>Calophyllum inophyllum</i> L.	Prof. Chandra M.
3	Bhagyalaxmi	Evaluation of nutraceutical properties of selected medicinal plant from Thuminadu, Manjeshwar	Mrs. Laveena K.B.
4	Disha G	Hydroponics of tomato - possible role of vermiwash as a nutrient solution	Prof. Prashantha Naik
5	G S Girish Kumar	Vision at the level of brain: A volumetric study of the tectofugal pathway in <i>Taeniopygia guttata</i> , <i>Emberiza bruniceps</i> and <i>Gallus gallus domesticus</i>	Prof. Monika Sadananda
6	Liekitha	Pharmacognostic and Pharmacological Evaluation of Selected Medicinal Plants	Mrs. Laveena K.B.
7	Pooja K	Assessment of physiochemical factors affecting the hydroponics of some vegetable crops	Prof. Prashantha Naik
8	Rohith Singh B	Volumetric Comparison of Song-Control Nuclei in Zebra finch (<i>Taeniopygia guttata</i>) And Red-headed bunting (<i>Emberiza bruniceps</i>)	Prof. Monika Sadananda
9	Salma Alnahaz	Evaluation of secondary metabolites and Study of antimicrobial activity of <i>Sida alnifolia</i> and <i>Naravelia zeylanica</i>	Mrs. Laveena K.B.
10	Sharanya	Effect of bio-tea on crop plant and seed germination	Prof. Chandrakala Shenoy K.
11	Shubhalakshmi	Water a quality analysis and isolation of microbes from selected stream water	Mr. S. Ravitheja
12	Sukanya	Phytochemical analysis and comprehensive evaluation of antioxidant and antimicrobial properties of some medicinal plants	Mr. S. Ravitheja
13	Vidyashree	Changes in antioxidant enzyme activities and other physiological activities of <i>Azolla filiculoides</i> response to cadmium stress.	Prof. Chandra M.
14	Vidyashree	Biology of <i>Arius maculatus</i> catfish	Prof. Chandrakala Shenoy K.
