FROM THE VICE -CHANCELLOR'S DESK

It gives me immense pleasure to write a few lines in this issue of Newsletter which highlights the significant works and contributions made in the field of teaching, research, infrastructural facilities and other initiatives undertaken during July-December 2016.

I am proud to say that Mangalore University has been recognised as one of the premier universities in the country in terms of academic and research activities. During the last three years, students' enrolment in higher education has been considerably increased. For the first time, a good number of international students from different parts of the world have joined our university. Further, more than one thousand research scholars have been registered for Ph.D. programme. The university provides good research facilities through PURSE, Microtron Centre, CARRT, CARER, etc. The h-index has risen from 31 in 2014 to 59 in 2017 as per Scopus.

Our students have also performed well in sports and cultural activities at the national level. The NSS volunteers are actively participating in Swacch Bharath programme and other social activities.

I would like to thank and congratulate the faculty, staff and students for their consistent support towards achieving excellence in higher education. I also appreciate the dedicated work done by the editorial committee of the Newsletter.
