

345 Master of Business Administration (MBA) Degree course
(Under Choice – Based Credit System)

Course Structure and Scheme of Examination

I Semester

Code	Subject	Instruc tion Hrs/ Week	Duration Of Exam Hrs/ Week	Marks for			Credits
				Int. Ass.	Final Exam	Total Marks	
401	Principles and Practice of Management	5	3	30	70	100	5
402	Accounting for Managers	5	3	30	70	100	5
403	Economics for Managers	5	3	30	70	100	5
404	Business Environment	5	3	30	70	100	5
405	Quantitative Analysis	5	3	30	70	100	5
	Total						25

II Semester

451	Organisational Behaviour and Business Communication	5	3	30	70	100	5
452	Marketing Management	5	3	30	70	100	5
453	Productions And Supply Chain Management	5	3	30	70	100	5
454	Human Resource Management	5	3	30	70	100	5
455	Business Research Methods	5	3	30	70	100	5
	Total						25

III Semester

501	Management Concepts and Functions (CBP)	4	3	30	70	100	4
502	Management Accounting	5	3	30	70	100	5
503	Computer Application in Management	5	3	30	70	150	5
504	Elective I	5	3	30	70	100	5
505	Elective II	5	3	30	70	100	5
506	Seminar on Management Topics	1	-	25	-	25	1
	Total		-		-		25

IV SEMSTER

551	Strategic Management	4	3	30	70	100	4
552	Operations Research	4	3	30	70	100	4
553	Entrepreneurship Development	4	3	30	70	100	4
554	Elective III	4	3	30	70	100	4
555	Elective IV	4	3	30	70	100	4
556	Project Report *	10				100	5
	Total						25
	Grand Total						100

*One instruction hour per student per project guide per week shall be allocated during the third and fourth semesters for project guidance.

SEMESTER 1

- 401 Principles and Practice of Management
- 402 Accounting for Managers
- 403 Economics for Managers
- 404 Business Environment
- 405 Quantitative Analysis

SEMESTER 2

- 451 Organisational Behaviour and Business Communication
- 452 Marketing Management
- 453 Productions and Supply Chain Management
- 454 Human Resource Management
- 455 Business Research Methods

SEMESTER 3

- 501 Management Concepts and Functions (CBP)
- 502 Management Accounting
- 503 Computer Application in Management

Electives

Finance

- 504 3F1: Strategic Financial Management
- 505 3F2: Security Analysis and Portfolio Management

HRM

- 504 3H1: Training and Development
- 505 3H2: Employee Relations Management

Marketing

- 504 3M1: Marketing Research & Consumer Behaviour
- 505 3M2: Promotion and Distribution Management

Hospital Administration

- 504 3HA1: Hospital Service Management
- 505 3HA2: Hospital Planning and Administration

Banking and Insurance

- 504 3BI1: Principles and Practice of Banking and Insurance
- 505 3BI2: Banking and Insurance Products

506 Seminar on Management topics

IV SEMSTER

- 551 Strategic Management
- 552 Operations Research
- 553 Entrepreneurship Development

Elective

Finance

- 554 4F3: Financial Services
- 555 4F4: International Financial Management

HRM

- 554 4H3: Global Human Resource Management
- 555 4H4: Compensation Management

Marketing

554 4M3: International Marketing Management

555 4M4: Service Marketing

Hospital Administration

554 4 HA3: Quality Management in Healthcare Organisation

555 4HA4: Legal Issues in Healthcare & Business Ethics

Banking and Insurance

554 4BI3: Legal Aspects of Banking and Insurance

555 4BI4: Treasury and Risk Management

556 Project Report

401: PRINCIPLES AND PRACTICE OF MANAGEMENT

Workload : 5 hours per week - Total credits 5

Examination : 3 hours 70 marks

Objectives : This module aims at acquainting students with the evolution of Management discipline and its implication on modern Industry and business. Its aims at providing a basic framework to solve the problems of organizations in an integrated manner.

Pedagogy : Lectures, assignments, practical exercises, discussions, seminars.

1. Introduction: The concept of management; levels and types of managers; Management Roles; The management process in practice; development of management thought – classical, neo-classical and modern; An overview of Managerial functions.

2. Planning and Decision Making: Nature and Purpose of planning, types of plans, objectives of plans, Planning Premises, planning process, limits of planning; decision-making- process of decision making, types of decisions, techniques in decision making, the rational Model of Decision Making; MBO - concept and process of managing by objectives; Strategic planning and implementation - an overview; Planning- control relationship.

3. Organizing: Nature and purpose of organizing; formal and informal organizations; levels and span of management; Departmentation – line and staff relations; centralization and decentralization; Delegation of authority; Types of emerging organization structures, organization design & contingency factors.

4. Staffing: Nature and purpose; an introduction to acquisition, maintenance, development and retention of personnel in organization.

5. Directing: Introduction to leadership, motivation and communication as managerial functions.

6. Controlling: The control process – common types of standards used in control process – control technique - factors influencing control effectiveness.

7. Business Ethics and corporate governance: Concept of ethics, nature and scope of ethics, impact of ethics on Business, Value Based Management; Corporate Governance - concept, need for corporate governance code, Corporate Disclosure, and Investor Protection in India, Evolution of Corporate Governance: practices and regulations; Understanding CSR, role of various institutions in CSR, Framework for rating CSR.

8. Key issues in Modern Management: Management in the 21st century – Manager's external environment, Globalization and management, Easternisation of management, Challenges of multiculturalism, Quality Management.

403: ECONOMICS FOR MANAGERS

Workload : 5 hours per week - Total credits: 5

Examination : 3 hours 70 marks

Objectives : To impart a basic knowledge of the concepts and tools of economic analysis as relevant for managerial decision making and to provide a fair understanding of the aggregate economic system within which a firm operates.

Pedagogy : Lectures, assignments, practical exercises, discussions, seminars, case study analysis

1. **Nature , scope and significance of Business Economics;** Economic Theories applied to Business decisions, factors influencing business decisions. Managerial Economics and other disciplines. Distinction between Micro and Macroeconomics.
2. **National Income Analysis;** Basic concepts - Measurements of National Income; Components of Income; Managerial Uses of National Income.
3. **Demand and Supply Analysis:** Law of Demand, Shift in Demand - Changes in Demand - Factors effecting demand - Elasticity of Demand - Measuring Elasticity of Demand - Determinates of Demand - Demand distinctions. Supply Curves - Factors affecting supply-- Elasticity of supply.
4. **Cost Analysis :** Production Function - Laws of Production - Cost Concepts - Least cost Combination of inputs - Factor Productivities & returns to scale ; Economies & Diseconomies of scale; managerial uses of production function.
5. **Demand Forecasting :** Factors involved in Forecasting - Techniques of forecasting - Purpose of Forecasting.
6. **Competition and Pricing :** Kinds of competitive situations; Non-price competition Cut-throat and destructive competition - Predatory and Discriminatory competition - Fair and Unfair competition. Price & output determination under perfect competition, Monopolistic, Oligopoly, Monopoly - Price behaviour and time element - pricing methods.
7. **Profits :** Nature of profits, Theories of Profits: Rent Theory, Monopoly as a source of profit - Marginal Productivity Theory - Dynamic Theory - Innovation Theory - Risk & Uncertainty Theory - Policies of Profits - Profit measurement.
8. **Business Cycle :** Types of Business Cycles; Phases of Business cycle - Theories of Business Cycles - Causes - Policies and Measure to control evil effects of fluctuations.
9. **Monetary and Credit System:** Monetary Controls, Inflation causes and effects – Control of Credit – Objective of Monetary Policy – Money and Growth – Monetary policy as an instrument of control .
10. **Government and the Macro Economy:** Public Finance and the Fiscal Policy – The meaning and importance of Fiscal Policy – Economics Stabilization – Automatic stabilizers and discretionary fiscal policy – Full employment and Budget surplus – Instruments of fiscal policy – Some problems of fiscal policy.

405: QUANTITATIVE ANALYSIS

Workload : 5 hours per week - Total credits: 5

Examination : 3 hours 70 marks

Objectives : To acquaint students with the basic tool for analysing data and to teach the application of mathematical concepts to management.

Pedagogy : Lectures, assignments, seminars, field work for collection of data.

1. **Variables and Functions:** Meaning, Types of Functions, Solution of Functions & Managerial Applications.
2. **Matrices and Determinations:** Types of matrices, Matrix Operations: Addition, Subtraction, Multiplication, Transpose and Inverse of a Matrix, Adjoint of a Matrix, Properties of Matrices, Determinant of a Matrix, Cramers's Rule. Solution to Equations using Matrices and Determinants, Application to Business.
3. **Differential calculus** -The concept of derivatives, derivative of a function, derivatives of linear and quadratic equations and applications to Management and economics. Derivative of a product of two functions, successive differentiation, partial differentiation, determination of maxima and minima optimization problems in business.
4. **Integral calculus** -Definite & indefinite integral, rules of integration, some standard results in integration, integration by substitution, Integration by parts, applications to business.
5. **Introduction to Statistics:** Importance of data collection and tabulation of data, diagrammatic representation of data - pie charts, bar charts.
6. **Measures of central tendency:** Mean, mode, median, geometric mean, quartiles, deciles and percentiles and their uses.
7. **Measures of dispersion:** Mean deviation, Quartile deviation, Standard deviation, Co-efficient of variation and application.
8. **Correlation analysis:** Its significance, correlation of two variables, properties, rank correlation co-efficient, co-efficient of determination - its significance, correlation co-efficient for bivariate frequency distribution.
9. **Regression analysis:** Significance, linear regression of two variables -applications to business -the line of best fit and the errors involved in estimation. Adequacy and appropriateness, regression lines for predicting values. Multiple regression and correlation analysis involving three variables only.
10. **Index numbers:** Concept and types of index numbers -construction of index numbers, some uses.
11. **Time series:** Variation in time series, trend analysis, cyclical variation, seasonal variation and irregular variation.

451: ORGANISATIONAL BEHAVIOUR AND BUSINESS COMMUNICATION

Workload : 5 hours per week - Total credits: 05

Examination : 3 hours 70 marks

Objectives : To familiarize the students with the behavioral patterns of human beings at individual and group levels in the context of an organization, which in turn is influenced by the environment, enveloping it. This is aimed at enhancing the ability of the students in the knowledge, prediction and control of human behavior in an organization.

Pedagogy : Lectures, assignments, role play & practical exercises, discussions, seminars.

PART-A : ORGANISATIONAL BEHAVIOUR

1. **An overview of Organizational Behaviour** - History of Organisational Behaviour and its emergence as a discipline-emerging perspective Organizational Behaviour.
2. **Individual process in organisation-** learning, perception and attribution- Individual differences - Basic concepts of motivation - Advanced concepts of motivation.
3. **Group process in Organisation** - Group dynamics, leadership theories -Power, politics and conflict - inter- personal communication.
4. **Enhancing individual and interpersonal process goal setting and reward** - job design - performance appraisal - stress - decision making and creativity.
5. **Integrating individual, Groups and Organisaton-**Organisational change and Development, Career Dynamics, International Aspects of Organisation - Managing Diversity.

PART- B: BUSINESS COMMUNICATION

1. **Foundations of Business Communication** - Communication, its functions, forms and process - barriers to communication and to overcome them - Non verbal communications - Improving the skills of Communication - understanding culture and cultural differences - overcoming intercultural differences in communication.
2. **Writing letters, memos, E-mail, and other brief messages-** Routine requests and positive messages - placing orders and acknowledging - routine requests for information and action - directives and instructions - organising bad news message - communicating negative answers and information - Delivering bad news customers - Handling bad news about company operations - Planning developing and writing persuasive message.
3. **Reports and oral presentations** - Need for reports - Information, analytical and summary report - Planning, Organising and writing reports and proposals - Formal reports and proposal and their components.
4. **Giving speeches and oral presentation** - Communications of information through the internet and other technologies - organising meetings and seminars etc. and recording the minutes.Group discussions – seminars, symposiums, panel discussions, conventions – conference – How to organize. public speaking, interview skills.

452: MARKETING MANAGEMENT

Workload	: 5 hours per week - Total credits: 5
Examination	: 3 hours 70 marks
Objectives	: This module is intended to offer a comprehensive introduction to the management of marketing functions, structures and institutions and their role in the contemporary economic and social development.
Pedagogy	: Lectures, assignments, role play and practical exercises, discussions, seminars.

1. Introduction: Marketing Management and its evolution; the marketing concept; marketing objectives, strategy, mix and organization. Marketing environment – macro and micro environments, components and their impact on marketing decisions.

2. Market Analysis: Segmentation: Meaning, Need, Factors influencing segmentation, Market Aggregation, Basis for segmentation, Segmentation of Consumer/ Industrial markets; Targeting: Basis for identifying target customers, Target Market Strategies; Positioning: Meaning, Product differentiation strategies, Errors in positioning. Marketing Research: Meaning and scope of marketing research; Marketing research process; Competition Analysis.

3. Consumer behavior: Introduction to Consumer behavior and its importance; factors influencing Consumer behavior - economic, socio-cultural and psychological factors; comparing industrial and Consumer buying behavior; Consumer decision making process.

4. Product decisions: Meaning and classification of products; New product development; product line and product mix decisions; branding decisions; packaging decisions; concept of product life cycle - implications on marketing strategy; Value Chain.

5. Pricing decisions: Role of pricing in marketing; factors influencing pricing; pricing objectives; different approaches to establish prices; new product pricing.

6. Integrated Marketing Communication and Promotion: Concept of communication mix, communication objectives, Marketing Communication Model; Promotion Mix - factors influencing promotion mix, an introduction to different promotion tools - Advertising, Sales Promotion, Public Relations, Managing the Sales force; E-marketing; Social Media Marketing.

7. Distribution decisions: Factors influencing channel decisions, Major types of Distribution channels - channels for consumer and industrial products; channel design and channel modification decisions; physical distribution and distribution cost analysis.

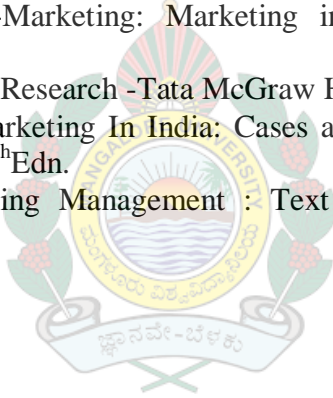

8. Rural Marketing in India: Insight into Indian Rural Market - Emergence of rural market, Importance of rural market, Structure of the rural market - rural demand and rural market index, potential of the rural market, imperfections in rural markets, factors influencing the rural market. Characteristic difference between rural markets and urban markets - Market research/information pertaining to rural market.

9. Marketing control: Features of an effective control system; Methods of Marketing control; Marketing audit.

10. Expanding role of marketing and contemporary issues: Social Marketing; Marketing and non-business organizations; marketing of services; consumer protection; Marketing ethics; demarketing; relationship marketing, Global Marketing, Retro Marketing, Virtual marketing.

453 :PRODUCTION AND SUPPLY CHAIN MANAGEMENT

Workload	: 5 hours per week - Total credits: 4
Examination	: 3 hours 70 marks
Objectives	: The course aims at familiarising the students with the production process and related issues in industrial Units. It introduces the students to aspects like quality, Inventory, Maintenance, materials management; and Methods analysis.
Pedagogy	: Lectures, assignments, Industrial visits and practical exercises, discussions, seminars.

1. **Production Function:** An introduction, Historical background of Modern Industry, definition and types of Production systems. Organisational structure and its interaction with other functional departments. The role of operations manager. An introduction to production planning and control.
2. **Facility Planning :** Facilities location decisions, factors affecting facility location decisions and their relative importance for different types of facilities, Facility location models. Facility layout planning. Layout and its objectives for manufacturing operations, warehouse operations, service operations, and office operations., principles, types of plant layouts – product layout, process layout, fixed position layout, cellular manufacturing layouts, hybrid layouts, Factors influencing layout changes.
3. **Product, Process and capacity design:** Types of processes, Choosing the service processes, capacity planning.: Job shop scheduling, sequencing and applications. Use of computers in production management.
4. **Quality Management :** Quality control concept, quality circles & the emerging concepts of total quality control. Control charts X and R charts. P control charts, control charts. Importance in cost reduction-basic concepts and procedures.
5. **Material requirement planning:** Dependent inventory models . MRP structure, benefits of MRP. Maintenance Management: Maintenance concept, preventive maintenance, maintaining system reliability.
6. **Introduction to SCM :**Basic concepts & philosophy of SCM, Essential features, Infrastructure flows (Cash, Value and information).Supply chain strategy. Key issues in SCM, benefits..
7. **Recent issues in SCM:** Role of computer/ IT in supply chain management, CRM Vs SCM, Benchmarking concept, features and implementation, outsourcing –basic concepts, value addition in SCM – concept of demand chain-management
8. **Logistics Management:** Logistics of part of SCM, logistics costs, different models, logistics, sub-systems, inbound and out bound logistics, bullwhip effects in logistics.

454 :HUMAN RESOURCE MANAGEMENT

Workload : 5 hours per week – Total credits 4

Examination : 3 hours 70 marks

Objectives : To impart basic knowledge of the concepts and tools of HRM as relevant to industrial organisation and to provide an understanding of the role of HRM in the overall strategic setting.

Pedagogy : Lectures, assignments, practical exercises, application of research to HR related problems.

1. **Human Resource Management at Work** – Changing environment of HRM – Strategic planning and HR management – Tomorrows HR today.
2. **HR Functions I** – Concepts of job, career and job analysis; Human Resource Planning Models. Work load analysis; Workforce analysis. Process and methods of recruitment: Process and methods of selection.
3. **HR functions II** – Compensation Management – Basic determinants of compensation – Building employer's commitment – Pricing Managerial and Professional jobs – current issues in compensation.
4. **HR Function III** – Pay for performance and financial incentives – Incentives for operations employees – Incentives for Managers and Executives – Organization-wide incentive plans and its development – various employee benefits and services.
5. **Human Resources Development I** – Role of Training – Training process – Training need analysis – Training techniques – Evaluation of Training effectiveness.
6. **Human Resources Development II** – Performance Appraisal its methods and types – need for performance appraisal – Problems in performance appraisal and solutions – Role of appraisal in managing performances; Career Planning – Process - Career Development, Career stages - Career Choices and Preferences; Succession Planning – Developing managerial career – Techniques for managerial career development; Role of counseling in management.
7. **Employee safety and health** – occupational safety – causes of accidents and its prevention – supervisor's role in safety – an overview Labor welfare activities.
8. **Employee Participation and Relations** – Participation and motivation - types and degree of participation - structure and functions of participation in management - Benefits of participation; Managing grievances and Discipline - Grievance Procedure - collective Bargaining - Settlement of Disputes.
9. **Future challenges of HR** – Managing Human Resources in future - Gen Y; Managing Human Resources in International Business.

455: BUSINESS RESEARCH METHODS

Workload	: 5 hours per week - Total credits: 5
Examination	: 3 hours 70 marks
Objectives	: To acquaint the students about the tools used for analysing data, to teach estimation techniques and to give an overview of report writing.
Pedagogy	: Lectures, assignments, practical exercises, discussions, seminars.

1. **An overview of research process** - problem formulation - research methods - exploratory and conclusive research - Descriptive and experimental research.
2. **Research Design** : The need and Features of Research Design and Concepts relating to Research Design.
3. **Sampling Design and Sample Theory** – Census and Sample, Steps in Sample Design, Selecting a Sample, Types of sampling - scope and limitations of sampling - sampling and non sampling errors.
4. **Levels of Measurements and Scaling techniques** - Nominal, ordinal, interval and ratio scales, Likert Scale.
5. **Probability Theory and its Applications:** Relevance of Probability to Management Decisions, Definitions, Basic rules – additions and Multiplication, Bayes' theorem and its applications, Random variables – expected value and variance.
6. **Theoretical Probability Distribution:** Binomial and Poisson probability distributions and their relevance. Normal distribution and Standard Normal variate and its applications. Use of statistical tables.
7. **Hypotheses Testing** - types of hypotheses - formulation of hypothesis - procedure for testing hypothesis - testing for mean, difference between means, proportion testing and variance testing.
8. **Estimation** - point and interval estimates.
9. **Chi square test and Goodness of fit** – scope, its application and limitations.
10. **Analysis of Variance** - its applications, One-way and Two-way ANOVA.
11. **Research Report writing** - planning and organizing - format - writing styles - documentation.

501: MANAGEMENT CONCEPTS AND FUNCTIONS
(Choice Based Paper)

1. **Introduction:** The concept of management; development of management thought – schools of Management thought – classical, neo-classical and modern; the process of Management. Emergence of modern management thoughts. Overview of management function.
2. **Planning:** Nature and Purpose of planning; types of plans, objectives of plans – Premises; decision-making; forecasting and planning; planning process; limits of planning. Strategic planning & implementation - an introduction.
3. **Organizing:** Nature and purpose of organising; organisation levels and span of management; departmentation – line and staff relations centralization and decentralization Delegation of authority; Formal and informal organisation. Types of emerging organisation structure, organisation design & contingency factors.
4. **Controlling:** The control process – common types of standards used in control process – control technique.
5. **Management of Human Resources:** Its nature, scope and functions – position of HR department in the organization – role of HR Manager – major personnel problems and global challenges to HR Managers.
6. **An overview of Marketing:** Introduction, Marketing Management, Marketing Concept, Elements of Marketing Concept, Marketing Mix – Introduction to product, price, place, promotion, packaging – Marketing Process.
7. **Finance Function in an organization – An overview :** Significance of financial management, Functions, objectives; introduction to financing, investment and dividend decisions.
8. **Key issues in Modern Management:** Managers and their external environment; social responsibility of business and business ethics; easternisation of management, corporate Governance.

502: MANAGEMENT ACCOUNTING

1. **Introduction to Management Accounting:** Management Accounting Vs Cost Accounting - Management Accounting budget Vs. Financial Accounting – Role and scope of Management Accounting – Role of Management Accountant.
2. **Budgetary Control:** Elements of management planning and control system – Budgeting as a tool – uses and organisation of Budgets – Organisation for Budgeting Control – The Budgeting process – steps in preparation of budgets – classification of budgets – Functional budgets – cash budgets – master budget – Fixed Vs. Flexible budgets – budget reports – Budget variances and reporting. Zero based budgets. Responsibility Accounting – Cost centre – Revenue centre – investment centre – profit centre.
3. **Cost of Capital:** Cost of equity, debt, retained earnings, rights and bonus issues – weighted average cost of capital.
4. **Capital Budgeting:** Appraisal of long-term projects – techniques of appraisal – Payback, Accounting rate of return, NPV, IRR and profitability index.
5. **Marginal Costing and Break-even Analysis:** Absorption vs. Marginal costing – contribution analysis – Relevance of Marginal Costing – P/V ratio – Break-even analysis. P/V and Break-even graphs – C-V-P analysis.
6. **Cost analysis for decision making:** The role of costs, relevant costs, differential costs – cost behaviour – make or buy, product mix decisions, accepting special orders, decision to shut down or continue operations – marginal pricing and its relevance limiting factors – formulation of linear programming model using product mix and limiting factors .
7. **Analysis and Interpretation of financial statements:** Uses and limitations of financial statements, Trend analysis and ratio analysis. Practical problems using company annual reports.
8. **Statements of changes in Financial position:** Funds flow and cash flow analysis – Net working capital schedule – International and Indian accounting standards on statement of changes in financial positions – practical problems using company annual reports.
9. **Working Capital estimates for companies:** Estimating the requirements – Gross working capital and net working capital – operating cycle.

503: COMPUTER APPLICATION IN MANAGEMENT

1. Information Technology: Application of information technology, uses of information technology, impact of information technology on business.
2. Electronic commerce. Infrastructure for e-commerce, communication networks for e-commerce, payment systems in e-commerce, impact of Ecommerce on Business. E-commerce in Indian Business Context, Business Models for e-commerce.
3. Information Systems for Mobile Commerce, Legal and Ethical Issues in E commerce and M commerce.
4. Information System Resources-Computer basics (H/w & S/w) DBMS, Communication Systems, internet and office automation.
5. Word processing with MS word - starting MS word - MS Environment - working with word documents - working with text - working with tables - checking spelling and grammar - printing document - creating mailing lists- mail and merge.
6. Concept of spread sheet and MS Excel - starting MS Excel - MS Excel Environment - working with Excel – workbook. Preparation of charts and graph with excel - working with workbook. Working with functions – Summery statistics, correlations, regression, t-test, z-test, Chi square test, Macros. Sort and filter commands. Introduction to SQL.
7. Making presentation with Ms Power point - starting Ms Power point - Ms Power point Environment - working with power point - working with different views - designing presentations - printing in power point. .
8. Data communication - Computer networking basics - LAN Technology and networking Topology - WAN Technology. Networking Devices.
9. Information System Management - Information Concepts - , its nature and functions, planning issues and the MIS organizing issues and the MIS - control issues and the MIS - Decision Support Systems - electronic Commerce - types - advantages and disadvantages - Electronic data interchange - How EDI works - EDI benefits and limitations.
10. Use of MIS at various levels of Management. A framework for information system for each level of Management and Operations. Types of Information systems – Operating Support Systems, Management support systems, Expert System.

3F2: SECURITY ANALYSIS AND PORTFOLIO MANAGEMENT

- 1. Investment Environment:** Real estates and financial assets - short term & long term - call money, treasury bills, CDs, CPs, LCs, discounting of bills, equities, bonds, debentures, fixed deposits, mutual fund units, tax sheltered saving schemes, life insurance and pension products, securitised and non securitised investments, warrants and convertibles and non-convertibles, financial derivatives, Foreign equities - investment process.
- 2. Securities Market:** Primary & secondary - Structure and functioning of the market, stock exchanges- listing, trading and settlement procedures- OTCEI, NSE, BSE, MCX-SX, - important international stock exchanges- depositories - recent developments - stock market indices - BSE SENSEX, BSE -100, BSE-200, Nifty, Dollex and, an overview of other indices - calculation of index.
- 3. Risk And Return:** systematic & unsystematic risk - calculation of beta - using beta to estimate return - expected risk & return - Significance of beta in the portfolio theory – estimation of beta from historical share prices, market risk.
- 4. Economic, Industry & company analysis:** economic forecasting & investment decision - economic forecasting methods - industry analysis - classification schemes - key characteristics - industry life cycle - company analysis - financial and non-financial factors.
- 5. Efficient market theory** – Forms of market efficiency, Weak form efficiency - random walk hypothesis, semi strong and strong form efficiencies – tests for weak, semi-strong and strong form efficiencies.
- 6. Technical analysis :** concept - types of charts - Dow theory - price pattern - support and resistance levels - relative strength analysis - moving averages - breadth of the market - volume - momentum - confidence index - contrary opinion theory - oscillators - stochastics - Elliot wave theory.
- 7. Portfolio Selection & Portfolio Analysis:** rate of return - indifference curves - calculating expected returns & standard deviations of portfolios - efficient set theorem - concavity of the efficient set - Markowitz model, Sharpe's single index model - diversification, Constructing optimal portfolios using Markowitz's model and Sharpe's models.
- 8. Capital asset pricing model :** assumptions - capital market line - security market line - arbitrage pricing theory - factor models - pricing effects - two factor and multiple factor models. Arbitrage Pricing Theory (APT) – Factor Models – Principles of Arbitrage, Arbitrage portfolios, pricing Effects, Multiple Factor models, Identifying the factors.
- 9. Derivatives:** Options – put and call options, - Trading - margin - valuation - binomial option pricing model – Black-Scholes model - index options. FUTURES - hedgers & speculators - contract - markets - returns - expected & current spot prices - futures options - index future.
- 10. Portfolio Revision and Evaluation** – Managed portfolios, Mutual Fund – Concept, history and types, Advantages and disadvantages, Net Asset Value, Indian Mutual Fund Scenario, Performance measurement using Sharpe, Treynor, Jensen, Fama and M^2 measures, information Ratio performance measures, GT Performance Measures.

3H1: TRAINING AND DEVELOPMENT

1. **Introduction to Training and Development:** understanding the concept of training, education, learning and development- a comparison. Functions, training process, Models of management training, approaches to management training and development, levels of management training, current trends, concept of HRD.
2. **Need for Training and Development:** determination of training needs and objectives, areas of training, motivation for trainers and trainees, training formula, techniques, responsibilities, areas and problems, organising training programmes.
3. **Methods of Training:** On the job and off the job training, apprenticeship training programme, training of rank and file workers, supervisors. Latest methods of training, the operative and supervisory staff training.
4. **Management and Organisation of Training:** responding to learners' needs, transfer and conducting training, positive reinforcement, motivational incentives and strategies- Keller's Arcs Model, training manuals, selection and training of trainers, ILO and training in new skills, government agencies and workers' education.
5. **Effectiveness and Evaluation of Training:** Monitoring Trainee's Performance, Faults Analysis, designing training programmes, evaluation of training , models of evaluation, stages of evaluation, job behaviour evaluation, cost benefit analysis, evaluating training staff performance, action strategies to improve training effectiveness, reviewing effectiveness of training , evaluation of training costs, human resource accounting.
6. **Management Development Programmes:** Need and objectives, methods of management developments- lectures, field trips, panel discussions, behaviour modelling, brain storming, case studies, role play, action mazes, critical incident, in-basket, team tasks, job rotation, buzz groups, syndicate discussions, simulations, business games, fish bowls, T groups, transactional analysis, managerial grid, organisation development, transcendental meditation, and latest methods of development.
7. **Competency Based Management Training:** introduction-concept of competency, competency based training programmes- need and importance, purpose and characteristics, paradigm shift in management training.
8. **Administration and Limitations of MDP:** Evaluation of MDP, comparative value of different methods, making training and development effective. A survey of training and development programmes in India.

3M1 :MARKETING RESEARCH &CONSUMER BEHAVIOUR

1. **Marketing Research : Definition:** Aims and objectives – contribution of marketing research. Need and scope for marketing research. Techniques of marketing research. Steps involving research procedure.
2. **Research Methodology & Research plan :** Research design, types of research, exploratory and descriptive steps involved in research design.
3. **Data Collection:** Types of data, sources; secondary data, limitations of secondary data; primary data- questionnaires, question sequence, question requirements, types of question, conducting the survey.
4. **The Sampling Process & Data Processing:** The sample, theory of sampling, types of sampling, probability and non-probability methods of sample selection. Data processing methods, tabulation, analysis and interpretation of data; statistical tool for data analysis, Use of statistical software packages. Preparation of the research report.
5. **Consumer Behaviour:** Consumer behaviour as marketing discipline - meaning and scope of consumer behaviour – decision process approach; Psychology and consumer behaviour.
6. **Nature of Buyer behaviour process:** Buyer behaviour models, Consumer decision processes. Nature and characteristics of Indian consumer buying process.
7. **Consumer behaviour and social influences,** Forms of social influences – culture, subculture, social class, reference groups, family, sales person's influence, influence of advertising and other situational influences.
8. **Consumer motivation:** Major components of consumer motivation, consumer perception, key factors in perception. Nature of consumer learning, major factors in learning. Consumer attitudes: Concept, components of attitude, relation of consumer attitude to consumer behaviour.
