MGP 551: Project Work

| | |
|--|-----------|
| <p>Dissertation: Each student is required to undertake a project work under the supervision of faculty members during the entire tenure of the fourth semester. The project may be experimental, field investigation, laboratory studies, a theoretical investigation accompanied by computational work, data processing and analysis or a combination of these. After the dissertation work is completed, students shall submit dissertation/thesis based on the above mentioned work. The dissertation is evaluated by internal and external examiners.</p> | 300 marks |
| <p>Viva –Voce: Each student has to present the dissertation work carried out by him/her in front of the examination committee comprising of Guide, Chairman of the department and external examiner(s).</p> | 100 marks |
| <p>Field Work: All students must do detailed geological field work / participate in the ocean expedition under the guidance of faculty members immediately after the third semester. The faculty members will continuously evaluate the performance of the students during field work / ocean expedition.</p> | 50 marks |
| <p>Field Report: A detailed report must be submitted immediately after the field work / ocean expedition to facilitate the students to devote the fourth semester time exclusively for dissertation. The report will be evaluated by the accompanied faculty member(s).</p> | 50 marks |
| Total | 500 marks |
