Data Analysis

The Department of Statistics has been a valued and integral part of Mangalore University. The Statistics Association is constantly organizing programs to develop interest among the under-graduate students towards application of the Statistics and syllabus is frequently upgraded as per the requirement's of the industry and society and organising stat festival under this, one such initiative is the 'Stat Fest: AVISHKAR-24', an inter-collegiate fest conducted every year to nurture curiosity and educate students about the upcoming developments in the field of Statistics and provide platform to the students showcasing the importance of statistics to the industry, academia and other section of the society to students and enlightening about the job prospects in the field of Statistics.

*AVISHKAR-24 is an innovative platform to showcase the creativity of students and discover great ideas.*
