I. Read the following passage and answer the questions that follow :

Mallika Srinivasan is an Indian industrialist who currently acts as the Chief Executive Officer of Tractors and Farm Equipment (TAFE). She is the recipient of several illustrious awards, including the First Business Woman of the Year Award for India which she received from BBC, Business Woman of the Year Award which was given to her by the Economic Times, and Entrepreneur of the Year in the field of manufacturing, from Ernst and Young. She has been given the title of 'Tractor Queen' by many members of the media for her success in the tractor industry. The media has also ranked her as one of India's most powerful businesswomen.

Born on 19 November 1959 in Chennai, in the State of Tamil Nadu, India, Mallika Srinivasan grew up listening to her father discussing business with the family at the dinner table. Her father's attitude to business taught Srinivasan a lot, shaping her into the industrialist she became. In school, she performed well, showing a keen understanding of business and economic principles. Her father had suggested that she study literature, but she did not regard his advice. She pursued an MA in Econometrics from Madras University instead. During that period of times he also got married to Venu Srinivasan, Chairman of the motorcycle manufacturer TVS Motor Company. However, Mallika was not content with an idle life. She decided to study abroad to further enhance her skills.

Our forests are important sources of natural wealth, covering one-fifth of country's land area. They supply the timber for the railways, buildings and furniture making. They also supply the fuel for cooking and the bamboo for papermaking. Medicinal herbs also come from the forests. In olden days, our wise men and philosophers had their ashrams in the forests. These ashrams were centres of knowledge and learning. Those sages had done an excellent job of maintaining our forests. So, we had wonderful forests. Unfortunately, forests were ruthlessly cut down in the past few years. While the forests are disappearing, the demand for timber is growing. We must, therefore, protect and develop our forests. Vanmahotsav is an important step in this direction. It is observed for a week in July every year. During this week, lakhs of saplings are planted throughout the country. This is being done to restore our fast disappearing forests. Still, deforestation poses a serious threat to forests on the earth. Deforestation causes soil erosion, sudden floods and global warming **(175 words)**
