(Compulsory)

Note : The answer to the question should **not** exceed **six** pages.

(1×15=15)

9. Case Study

XO Infotech Ltd. has developed a core package — Hospital Management System that addresses all major functional areas of the Hospital. The development environment ensures that XO HMS has the portability and connectivity to run on virtually all standard hardware platforms, with stringent data security and easy recovery in case of a system failure. XO HMS provides the benefits of streamlined operations, enhanced administration and control, improved response to patient care, cost control and increased profitability. Some of the subsystem Modules in XO HMS: Reception, OPD, IPD Registration and Admission, Administration, Security, Pharmacy Store, Purchase, Phlebotomy, Laboratory, Emergency, OT Management, Minor Surgery, Blood Bank, Ward Management, OPD and IPD Billing, Intensive Care Unit (ICU), Food and Beverages, Discharge Summary, Financial Accounting, Marketing Module, Doctor's Module, HR Management.

Recommend the conceptual plan for implementation of the Hospital Management System at XO Infotech Ltd.
